

Matissec, create, develop, manufacture and sell chemical protective suits that provide complete, reliable, secure protection. In accordance with standard EN943-2, Matissec suits allows performing rescues and other operations in hostile environments with corrosive liquid and gaseous-state chemicals.

GR3 SUIT

The GR3 reusable suit provides protection from liquid and gaseous chemical products (aerosols, liquids and solid particles). It is a non-ventilated type 1B suit (gas-tight in accordance with standard EN943-2) and is designed for use with an external insulating respiratory system.

GR 3 SOL SUIT

The GR3 SOL protective suit provides the same levels of protection and comfort as the GR3. It also protect the SCBA worn inside the suit (type 1a).

Inverter KIT 3S

This kit allows to work on an external air source and so make the SCBA air line connected to save autonomous cylinder duration.

Breathing air trolleys

In case of emergency requiring SCBA, CHEMICAL SUIT, BAIL OUT or ESCAPE HOOD additional breathing air needs could appear.
