

Products manufactured for the protection of people at work are often products that can be used for the protection of military personnel. CBRN suits are all resistant to various warfare toxins and combat gases (Sarin, Tabun, Yperite, ...)

ALL CBRN MATISEC MILITARY PROTECTIVE CLOTHING

▶ NATO GREEN GR IV

A direct variation of the GR IV Chemical suit but in NATO GREEN, this suit is used by the army's special sections and the GIGN's special forces.

▶ KI CF

The KI CF suit, like the DM II suit, allows the wearing of a breathing apparatus with its mask (type 1a).

▶ SAFEGUARD SUIT

Specially designed for the French Navy, the safeguard suit is characterised, in addition to its resistance to toxic warfare agents, by its small storage space, specially adapted to the gas mask bag, and its speed of use. It replaces the CBRN poncho of the infantryman...

▶ COMAT (& white CGN)

The COMAT suit protects the skin against a large number of hazardous liquid chemicals used in many areas of activity.

▶ TSA - Anti-Toxic Substances Survival

The "TSA" anti-toxic survival suit is designed to provide protection against wartime toxins. The suit has been developed using a new generation of barrier films.

▶ Multi-purpose reflector suit (VAARP)

The VAARP multipurpose reflector suit is a category 3 PPE. It consists of a floating lining.
