MATISEC L'INSTINCT DE PROTECTION

With the increase in industrial risks, the harmfulness of modern fires and the professionalism of users, MATISEC designs and manufactures Insulated Breathing Apparatus combining robustness, ergonomics and new technology. Recognised by many fire brigades, the Navy...

ALL MATISEC HOODS

SAUVIMAT EVAC Type

The SAUVIMAT hood provides continuous flow respiratory protection inside the bonnet with exhalation to the outside through a valve.

MATIVENT CI

The MATIVENT CI ventilated hood is a category 3 PPE that protects the skin against a wide range of hazardous liquid chemicals used in many fields of activity and meets the requirements of EN 14594:2018.
