

Using protective equipment required lots of means of support, storage, cleaning, reconditioning and operational condition maintenance. For all those needs MATISEC propose its product service and particular solutions tailored to specific customer need.

Security material on site

This specific service consist in manufacturing a mobile shelter of "support unit" on site (oil plateform,gaz..), with all the means inside in order to assume the maintenance, logistic, storage of protective equipment. Depending of climatic constraints this unit could be insulated, warmed or cooled...
