

Matissec, create, develop, manufacture and sell chemical protective suits that provide complete, reliable, secure protection. In accordance with standard EN943-2, Matissec suits allows performing rescues and other operations in hostile environments with corrosive liquid and gaseous-state chemicals.

KI GV SUIT

The KI GV protective suit, like the DM version, allows the user to wear a respiratory system and mask (type 1 a). An integrated helmet protects the user's head from shocks with no need further protection. A panoramic anti-condensation visor provides a very wide angle of vision when looking up or down.

Inverter KIT 3S

This kit allows to work on an external air source and so make the SCBA air line connected to save autonomous cylinder duration.

Breathing air trolleys

In case of emergency requiring SCBA, CHEMICAL SUIT, BAIL OUT or ESCAPE HOOD additional breathing air needs could appear.
