

Matissec, create, develop, manufacture and sell chemical protective suits that provide complete, reliable, secure protection. In accordance with standard EN943-2, Matissec suits allows performing rescues and other operations in hostile environments with corrosive liquid and gaseous-state chemicals.

ULM SUIT

ULM protective suits are manufactured and assembled using technologies different from those used for elastomeric suits. They are composed of multilayer films that guarantee conformity with standard EN943 type 1a while also providing a flexible, light-weight garment.

Inverter KIT 3S

This kit allows to work on an external air source and so make the SCBA air line connected to save autonomous cylinder duration.

Breathing air trolleys

In case of emergency requiring SCBA, CHEMICAL SUIT, BAIL OUT or ESCAPE HOOD additional breathing air needs could appear.
