

Matisec, leading manufacturer of ventilated suits and hoods, now provides a complete line of 100% reliable PPE, hoses and secure filtration posts in conformity with EN 14593/EN14594.

UQUAR

The UQUAR (Respirable air quality unit) is located upstream of the UFS and allows continuous measurement and monitoring of the breathable air quality of the network in accordance with the requirements of EN 12021.

Hoses

The air hoses MATISEC are designed both regarding raw material of the hose, nipple diameter and length in order to offer the minimum pressure drop.

TIVA

The TIVA, an adaptable intervention suit, meets the new regulatory requirements: its precise and daring design (due to its use with an internal ventilated bonnet), offers the user unparalleled comfort.

MRV5 (Pink & Natural)

The MRV5 suit (Pink or Natural transparent), used in the majority of maintenance activities in contaminated areas, offers an uncompromising level of protection and

PK17 (Pink & PMI)

The PK17 suit, used in the majority of maintenance activities in contaminated areas, offers an uncompromising level of protection and wearing comfort.

MATIVENT (Pink & Natural)

The MATIVENT Pink hood (controlled zone ZC) and the MATIVENT Natural hood (outside controlled zone ZC), with its robust and reliable design, is perfectly positioned on the wearer's shoulders thanks
